

New: 609 Children in the Feeding Program

- Malnourished children are tired during school lessons and cannot follow the classes.
- **Our daily lunch at school strengthens the children and promotes their ability to follow the school tasks.**
- Families in need are supported and relieved.

The children supported are re-selected every year in collaboration with the school nurse.

Why this massive increase in the number of supported children?

Inflation in the Philippines has risen by a total of 20% over the past four years! This development hits all families that live below the poverty line particularly hard. Their minimum income as day laborers and the pay for odd jobs have not increased. For people with little education there is often no or insufficiently paid work.

As a result, the number of malnourished children has increased by 80% compared to last year.

We are convinced that poverty can be overcome sustainably with education.

With daily lunches at school, we focus on education. The children receive help throughout the entire school year. Our team cooks fresh, balanced meals every day and distributes them to six schools.

Write this story with us.

Our cook is supported by the teaching staff in serving meals to the children.

The children and we say thank you from the bottom of our hearts.

Dear Donor

Dear Friend(s) of our Project

We have been working in the Philippines for 17 years now, supporting children, young people and families affected by poverty in the village of Caba.

We are currently helping 609 children with the **feeding program**. We are enabling nine young people to study through **scholarships**. Where necessary, we provide **direct help** such as medical care, e.g. for tuberculosis and other illnesses.

It is only thanks to your loyal donations that it is possible to translate this help into action, to continue and to look at this success story in the future.

We will travel to Caba on November 21st, 2023 until March 11th, 2024 to support the project on site.

Rahel Jud
President

Kurt Linder
Vice-President

Our team on site in front of the kitchen together with Rahel Jud and Kurt Linder. (February 2023)

We say thank you for supporting our programs.

Feeding Program

A daily **full lunch** at school during one school year.

Per child for one year 135 CHF

Every single franc counts.

Scholarship

School material per child / year 20 CHF

College Scholarship for carefully selected young people whose families cannot finance their studies themselves.

Per student / month 150 CHF

Direct Help

Medical care for sick or injured children

Repairs to infrastructure destroyed by typhoons (roofs, huts, fishing boats, etc.)

We are grateful for any amount!
