

List of Recent Reference Projects

Technical DD – Commissioning – Thermal Imaging

Jendra Power AG

28.06.2017

References of Technical DD

Projects 2012	Power	Services	Mandated by	Date
ground mounted power plant in Sicily/Italy	2.6 MW	Complete technical inspection on-site	Swiss Investor	January 2012
roof top power plant near Alès/France	1.0 MW	Complete technical inspection on-site	consulting company	May 2012
roof top power plant near Bordeaux/France	4.3 MW	Complete technical inspection on-site	consulting company	June 2012
ground mounted power plant in Piemonte	2.5 MW	Complete technical inspection on-site	Swiss Investor	Aug 12
roof top power plants in South Germany	1.4 MW	preliminary check	German Investor	Aug 12
ground mounted power plant near Bari/Italy	1.0 MW	Complete technical inspection on-site	Swiss Investor	Nov 12
ground mounted power plant near Taranto/Italy	0.9 MW	Complete technical inspection on-site	Swiss Investor	Nov 12
ground mounted power plant near Taranto/Italy	1.0 MW	Complete technical inspection on-site	Swiss Investor	Nov 12
Projects 2013	Power	Services	Mandated by	Date
roof top power plant near Zurich	0.1 MW	technical inspection on-site and control of documentation	Swiss utility	Feb 13
ground mounted solar power plant near Nîmes/France	4.3 MW	quality management during construction	Swiss utility	start Feb. 2013
roof top power plant near Milano	3.3 MW	Complete technical inspection on-site	Swiss Investor	March 2013
ground mounted power plant near Bari/Italy	1.0 MW	Complete technical inspection on-site	Swiss Investor	June 2013
ground mounted power plant near Brindisi/Italy	1.0 MW	Complete technical inspection on-site	Swiss Investor	June 2013
ground mounted solar power plant near Marseille/France	9.4 MW	quality management during construction	Swiss utility	start July 2013
ground mounted solar power plant near Marseille/France	4.5 MW	quality management during construction	Swiss utility	start July 2013

Projects 2014	Power	Services	Mandated by	Date
ground mounted power plant near Ravenna	2.3 MW	technical assessment	Swiss Investor	Jan 14
ground mounted power plant near Bordeaux	12.0 MW	Technical-DD	Swiss utility	May 2014
roof mounted solar power plant Birsfelden/Switzerland	1.3 MW	quality management during construction	private investor	Sept-Dez 2014
roof mounted solar power plant Baar/Switzerland	1.2 MW	technical audit	private investor	Sep 14
ground mounted power plant near Bari/Italy	1.0 MW	technical inspection after theft	Swiss Investor	October 2014
Projects 2015	Power	Services	Mandated by	Date
Group of 6 power plants in Switzerland	3.2 MW	technical DD	Swiss Investor	Apr 15
existing power plant	0.3 MW	technical audit	Swiss utility	Apr 15
ground mounted power plant near Taranto/Italy	2.0 MW	technical inspection after theft	insurance	May 2015
ground mounted power plant near Modena/Italy	1.0 MW	technical inspection after theft	insurance	June 2015
roof mounted solar power plant in Switzerland	1.4 MW	technical DD and quality management	Swiss investor	October 2015
roof mounted solar power plant in the Dominican Republic	1.2 MW	technical DD and project work	factory owner	October 2015
ground mounted solar power plant near Maniago/Italy	5.0 MW	technical inspection after theft	insurance	October 2015

Projects 2016	Power	Services	Mandated by	Date
roof and facade mounted solar power plant in CH	0.2 MW	technical DD and project work	building owner	Jan 16
roof mounted solar power plant in the Dominican Republic	0.2 MW	technical DD and project work	factory owner	Feb 16
Group of 6 power plants in Switzerland	2.6 MW	technical DD	Swiss Investor	Jan 16
ground mounted solar power plant near Ancona/Italy	1.0 MW	technical inspection after landslide	insurance	Apr 16
ground mounted solar power plant near Corinaldo/Italy	2.3 MW	technical inspection after natural hazard	insurance	Apr 16
ground mounted solar power plant near Brindisi/Italy	2.0 MW	technical inspection insurance change	insurance	Feb 16
3 solar power plants in Switzerland	0.7 MW	thermal aerial inspection	Swiss Investor	May 16
ground mounted solar power plant Taranto/Italy	1.0 MW	technical inspection after theft	insurance	May 16
7 solar power plants in Switzerland	3.1 MW	technical inspection	Swiss Investor	July 16
2 power plants in Switzerland	0.7 MW	technical DD	Swiss Investor	July 16
4 solar power plants	0.8 MW	thermal aerial inspection	Swiss Investor	Aug 16
2 solar power plants	0.3 MW	technical inspection	Swiss Investor	Aug 16
roof mounted solar power plant	0.5 MW	quality management commissioning	Swiss Investor	Sep 16
ground mounted solar power plant in France	4.5 MW	quality check	utility	Sep 16
roof integrated solar power plan	0.1 MW	expertise	private investor	Aug 16
3 roof mounted solar power plant	1.7 MW	tender call for plant operation	private investor	Sep 16
roof mounted solar power plant	0.1 MW	check after lightning strike	insurance	Sep 16
4 roof mounted solar power plants	0.5 MW	quality check of 4 solar power plants	utility	Sep 16
roof mounted solar power plant	0.5 MW	tender call quality management	Swiss Investor	Oct. 16
ground mounted solar power plant in France	4.8 MW	quality check	utility	Oct. 16
Projects 2017	Power	Services	Mandated by	Date
ground mounted solar power plant Ital	1.0 MW	insurance expertise after module theft	insurance	Jan 16
roof mounted solar power plant in the Dominican Republic	3.3 MW	insurance expertise after module theft	insurance	Feb 16
Group of 6 power plants in Switzerland	1.0 MW	technical inspection after natural hazard	insurance	Jan 16
In total we conducted technical DD works and commissioning inspection of 195 MW. The complete power plant experience is 28 years, 220 MW and 100 installations, construction, quality management, technical DD, commissioning inspection.				

References „Commissioning Checks“

Projects before 2014	Power	Services	Mandated by	Date
roof mounted power plant in Albatara South Spain	0.5 MW	commissioning audit	Swiss utility	July 2010
carport power plant in Huelva South Spain	2.6 MW	commissioning audit	Swiss utility	March 2011
roof top power plant near Sevilla South Spain	0.1 MW	commissioning audit	private investor	June 2011
green house power plant near Granada South Spain	4.3 MW	commissioning audit	Swiss utility	Apr 12
ground mounted power plant near Taranto/Italy	1.0 MW	Complete technical inspection on-site	Swiss Investor	Nov 12
ground mounted solar power plant near Nîmes/France	4.3 MW	commissioning audit	Swiss utility	Nov 13
roof mounted solar power plant Basel/Switzerland	0.8 MW	commissioning audit	Swiss utility	Nov 13
Projects 2014	Power	Services	Mandated by	Date
roof mounted solar power plant near Basel/Switzerland	2.0 MW	commissioning audit	private investor	Jan 14
roof mounted solar power plant near Basel/Switzerland	1.9 MW	commissioning audit	private investor	Feb 14
roof mounted solar power plant Basel/Switzerland	1.2 MW	commissioning audit	private investor	March 2014
roof mounted solar power plant Steg/Switzerland	0.45 MW	commissioning audit	private investor	Feb 14
roof mounted solar power plant Bellerive/Switzerland	0.30 MW	commissioning audit	private investor	March 2014
roof mounted solar power plant near Nyon/Switzerland	0.30 MW	commissioning audit	private investor	March 2014
ground mounted solar power plant near Aix/France	9.4 MW	commissioning audit	Swiss utility	Apr 14
roof mounted solar power plant Arbon/Switzerland	2.0 MW	commissioning audit	private investor	May 14
ground mounted solar power plant Kirchberg/Switzerland	0.2 MW	commissioning audit	private investor	July 14
Projects 2015	Power	Services	Mandated by	Date
roof mounted solar power plant near Basel/Switzerland	1.3 MW	commissioning audit	private investor	Mär 15
2 power plants in Switzerland	1.1 MW	commissioning audit	Swiss Investor	May 15
roof mounted power plant in Switzerland	0.2 MW	bi-annual audit	Swiss Investor	May 15
ground mounted solar power plant near Aix/France	4.5 MW	commissioning audit	Swiss utility	May15
4 roof mounted power plants in Switzerland	1.5 MW	commissioning audit	Swiss Investor	July-Nov 15
roof mounted power plant in Switzerland	1.2 MW	2-year audit	Swiss utility	Nov 15
roof mounted power plant in Switzerland	0.8 MW	2 year audit	Swiss utility	Nov 15

Projects 2016				
	Power	Services	Mandated by	Date
roof mounted solar power plant in Switzerland	1.4 MW	commissioning check	Swiss investor	Apr 16
ground mounted solar power plant near Aix/France	9.4 MW	2-year audit	Swiss utility	March 2016
2 roof mounted solar power plant in Switzerland	0.7 MW	commissioning check	Swiss investor	June 2016
roof mounted solar power plant in Switzerland	0.5 MW	commissioning check	Swiss investor	Aug 16
roof mounted solar power plant in Switzerland	0.5 MW	commissioning check	Swiss investor	Sep 16
Projects 2017				
	Power	Services	Mandated by	Date
roof mounted solar power plant in Switzerland	1.2 MW	2-year audit	Swiss investor	Apr 17
ground mounted solar power plant near Aix/France	9.4 MW	2-year audit	Swiss utility	March 2016
2 roof mounted solar power plant in Switzerland	0.1 MW	power plant extension	Swiss investor	Apr 17
roof mounted solar power plant in Switzerland	0.2 MW	4 year audit	Swiss investor	June 17
roof mounted solar power plant in Switzerland	0.4 MW	commissioning check	Swiss investor	June 17
<p>In total we conducted technical DD works and commissioning inspection of 195 MW. The complete power plant experience is 28 years, 220 MW and 100 installations, construction, quality management, technical DD, commissioning inspection.</p>

Projects 2015	Power	Services	Mandated by	Date
roof mounted solar power plant	1.3 MW	thermal imaging	Swiss Investor	Apr 15
roof mounted solar power plant	0.2 MW	thermal imaging	Swiss investor	May 2015
roof mounted solar power plant	1.3 MW	thermal imaging	Swiss investor	May 2015
roof mounted solar power plant	0.1 MW	thermal imaging	Swiss investor	May 2015
roof mounted solar power plant	0.3 MW	thermal imaging	Swiss investor	May 2015
roof mounted solar power plant	0.2 MW	thermal imaging	Swiss investor	June 2015
roof mounted solar power plant	2.0 MW	thermal imaging	Swiss investor	July 2015
Projects 2016	Power	Services	Mandated by	Date
roof mounted solar power plant	1.4 MW	thermal imaging	Swiss Investor	May 16
roof mounted solar power plant	1.3 MW	thermal imaging	Swiss investor	May 16
roof mounted solar power plant	1.4 MW	thermal imaging	Swiss investor	May 16
3 roof mounted solar power plant	0.7 MW	thermal imaging	Swiss investor	May 16
roof mounted solar power plant	2.0 MW	thermal imaging	Swiss investor	May 16
roof mounted solar power plant	2.0 MW	thermal imaging	Swiss investor	July 2016
roof mounted solar power plant	0.3 MW	thermal imaging	Swiss investor	July 16
roof mounted solar power plant	0.4 MW	thermal imaging	Swiss investor	July 16
roof mounted solar power plant	0.1 MW	thermal imaging	Swiss investor	July 16
roof mounted solar power plant	0.4 MW	thermal imaging	Swiss investor	July 16
roof mounted solar power plant	2.0 MW	thermal imaging	Swiss investor	July 16
6 roof mounted solar power plant	1.9 MW	thermal imaging	Swiss investor	July 16
4 roof mounted solar power plant	0.8 MW	thermal imaging	Swiss investor	Aug 16
roof mounted solar power plant	0.2 MW	thermal imaging	Swiss investor	Aug 16
roof mounted solar power plant	0.2 MW	thermal imaging	Swiss investor	Aug 16
roof mounted solar power plant	0.2 MW	thermal imaging	Swiss investor	Sep 16
roof mounted solar power plant	0.5 MW	thermal imaging	Swiss investor	Sep 16
roof mounted solar power plant	0.1 MW	thermal imaging	insurance	Sep 16
4 roof mounted solar power plant	0.6 MW	thermal imaging	Swiss investor	Sep 16
Projects 2017	Power	Services	Mandated by	Date
roof mounted solar power plant	0.5 MW	thermal imaging	Swiss Investor	March 17
roof mounted solar power plant	0.4 MW	thermal imaging	cooperative	Apr 17
roof mounted solar power plant	1.4 MW	thermal imaging	logistics co.	May 17
roof mounted solar power plant	0.1 MW	thermal imaging	utility	May 17
roof mounted solar power plant	1.2 MW	thermal imaging	utility	May 17
roof mounted solar power plant	0.4 MW	thermal imaging	private owner	June 17
roof mounted solar power plant	0.2 MW	thermal imaging	private owner	June 17
roof mounted solar power plant	0.2 MW	thermal imaging	private owner	June 17
roof mounted solar power plant	0.4 MW	thermal imaging	private owner	June 17
In total we conducted technical DD works and commissioning inspection of 195 MW. The complete power plant experience is 28 years, 220 MW and 100 installations, construction, quality management, technical DD, commissioning inspection.
