

JULIANTINE.

The postdadaistic , pseudotechnical , nonsense-driven combination of Julian gallows(J.g.) & a Guillotine(G.) . It's functionality is based on synchronised timing (the drop-door of J.g. & the G. razor , open resp. fall simultaneously) & the presumption that the U-turned rope (it's length is of vital importance) thru the head-hole of the G. will be cut off sooner than it's entirely pulled out of the head-hole .

Synonym for:

- to aim at ineffectiveness
- simultaneously operating systems abolish each other's impact
- true survival gear
- presumption of a last-second salvation
- dAdA version of Cool
- etc.
