

Compatibility List–DrumIt Three & Five

The following list is not exhaustive, because testing all current and legacy pads on the market would be rather time-consuming. We do promise, however, to keep this list up-to-date whenever we are able to confirm the compatibility of products we haven't tested so far. If you don't see the type or manufacturer of (one of) your pads, please do not conclude that your pad(s) won't work with the DrumIt Three. Rather, compare the technical specifications of your pads with the requirements listed in the table below. If the specs match the listed requirements, your pads may work even though they do not appear in the list of compatible products.

If in doubt, just ask your dealer or send an e-mail to: drumit3-compatibility@2box-drums.com

Pad Type	Kick	Snare/Tom	Hi-hat pad	Hi-hat controller
Specifications	Piezo (head)	Piezo (head)	Piezo (bow)/Switch (edge)	Adjustable resistor, active hall generator or switch

This compatibility List was created in cooperation with Zourman. Many thanks at this point for the great work and collaboration.

Configurations Examples

*1) Roland Hi-hat VH-11

- Document: https://zourman.com/wp-content/uploads/2018/07/ZD_HH_Three_VH11.pdf
- Movie: <https://youtu.be/xpxzzEuJopg>

*2) Roland Hi-hat VH-12 / VH-13

- Document: https://zourman.com/wp-content/uploads/2018/11/ZD_HH_Three_10.pdf
- Movie: <https://youtu.be/knJSKqsBbQI>

*3) ATV Hi-hat aD-H14

Please note that a Zourman Drums Conversion Module for ATV aD-H14 is needed.

- Document: https://zourman.com/wp-content/uploads/2019/02/ZD_manual_ATVHH_22.pdf
- Movie: <https://youtu.be/QD3AIHeEVc0>

*4) Roland 3 Zone Ride CY-13R & Roland 3 Zone Ride CY-15R

- Document: https://zourman.com/wp-content/uploads/2018/11/ZD_HH_Three_10.pdf
- Movie: https://youtu.be/EO7QBhn_fSU

*5) 2Box Trigt Triggers

Use the pre-settings "DrumItTrig.dkit" found on 2Box DrumIt Three Module.

+ Piezo to Yamaha 3 zone style PADs for 3 zone snare implementations on 2box DrumIt Three

*6) Convert Piezo to Switch Scenarios

If converting a piezo/piezo based cymbal to piezo/switch the Zourman Drums P2S conversion modules can be used. (Keith Raper designs). The dual P2S version can be used to convert Piezo/Piezo
